

Save Our Schools

I am writing to implore you to address an imminent need in East Brunswick Public Schools. We are seeking immediate interventions by you on our behalf. Please help us restore millions of dollars in funding that has been cut from our schools for the 2024-2025 fiscal year and to lift the 2% tax cap levy to allow our district to minimize the negative impact of the full implementation of the public-school funding formula.

Without your support our schools will need to cut staff, programs, and services that are critical to our students. The personnel impacts alone consist of essential teaching and support staff positions as well as critical administrative positions. Your quick action is needed for this time sensitive matter.

The State bears complete responsibility for the lack of action to address the funding cuts. These funding cuts and their resulting educational and human impacts, now that the public school funding formula has been fully actualized, have been largely ignored by state legislators. Our children need your help more now than ever in order to maintain the schools that our students deserve. The fate of our children is at stake and regardless of political affiliation, we appeal to every legislator and the Governor to act immediately to restore funding and allow flexibility within the 2% tax levy cap.

Thank you for taking the time to read my letter. Please act immediately to help restore our school funding.
