- 3. Online Scheduling and Course Selection for the 2023-2024 School Year:** The "Scheduling" module is available in Parent Access so students can begin submitting course selections for the 2023-2024 school year. Online course selection will remain open through March. School counselors will meet with students later this winter and in the spring to review course selections before that information is used to begin building student schedules. Please use the links on the next page for some helpful resources related to online scheduling, course selection, and planning for the 2023-2024 school year.
