

## MEDICATION GUIDELINES

School nurses are not permitted to dispense **any medication** without a doctor's written order, including over-the-counter medications. Guidelines for administering medication in school are as follows:

A completed Medication In School Form is required. Only written orders from Physicians, APN, or PA's are acceptable. Orders should include start and discontinue dates and diagnosis.

All medication must be in a pharmacy labeled containers with the student's name, medicine identification, dosage, time to be given and dates. The doctor's and pharmacy telephone number are needed in case there are unanticipated side effects.

Parents should bring the medication to the nurse.

All non-prescription drugs are to be handled the same as prescribed drugs. Therefore, the nurse will administer drugs such as aspirin, tylenol, antihistamines or non-prescription cough syrup, etc, only upon receipt of written orders from the doctor and parent request. The original container of the over-the-counter medication also must be provided.

**Medication In School Forms must be renewed every school year.**

At the end of each school year, medications are to be picked up by the parent. All medications left in the nurses office will be discarded at the end of the school year.

### **PLEASE NOTE:**

- For Inhalers, you need a Medication In School Form and an Asthma Action Plan.
- For Epi-Pen, you need a Medication In School Form and an Allergy Action Plan.
- For Diabetes, the Diabetes Plan of Care **must** be completed by a physician.
- For Siezuress, currently on medication, you need a Medication In School Form and a completed Siezure Action Plan.
- Medication in school forms are required for all medicines including over the counter.
